

NextGenAI International Organization

Empowering Young Thinkers for an AI-Powered Tomorrow

A student-led, mentor-supported organization dedicated to equipping high school students with foundational AI knowledge, encouraging them to design AI-driven solutions for global challenges, and facilitating collaboration among AI clubs worldwide.

Our Mission

Empower Young Thinkers

Dedicate the organization to empowering young thinkers worldwide

Shape AI-Powered Tomorrow

Help young people shape an AI-powered future through the organization's efforts

Education, Innovation, Collaboration

Achieve the mission through education, innovation, and global collaboration

NextGenAI is dedicated to empowering the next generation of young leaders to thrive in an AI-driven world through a multifaceted approach of education, innovation, and global collaboration.

Why Now?

The AI revolution is transforming industries like healthcare, education, and sustainability. Young people must be equipped to lead ethically in this AI-driven future. NextGenAI aims to engage the next generation early and bridge gaps in AI education and access worldwide.

Our Activities

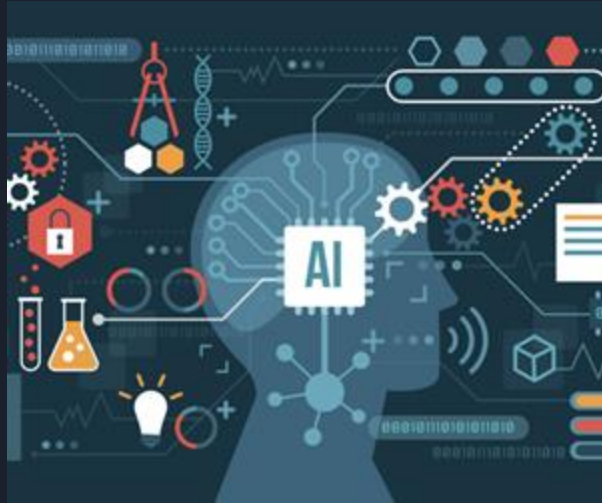

Innovations & Internship

AI Exploration & Learning

Global Collaboration & Outreach

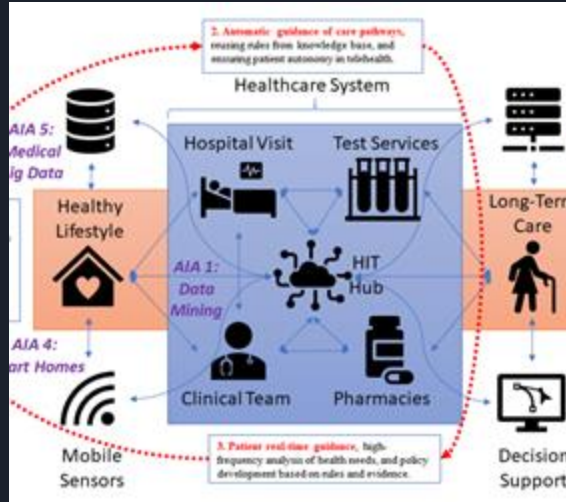

Innovations & Internship

AI Internships

Students research topics like bias in algorithms, emotion recognition, or AI in medical imaging.

Design a Future-AI Tool

Students propose AI-based apps or systems to address real-world issues like healthcare, education, and sustainability.

Showcase Days

Students present their AI projects to school communities and local organizations.

AI Exploration & Learning

AI Ethical Awareness

Conduct a school survey to assess AI ethical awareness, propose an AI ethics curriculum, and develop a validated measurement instrument using the Berkeley Assessment System (BAS) framework.

Guest Speaker Series

Organize quarterly talks by AI experts from academia, industry, or startups to expose students to diverse perspectives on AI.

AI Workshops

Host workshops covering AI fundamentals, coding, and ethics to provide hands-on learning opportunities for students.

Global Collaboration & Outreach

Key Themes

Ethical AI & Bias Mitigation

Ensure AI systems are designed and deployed with strong ethical principles to mitigate biases and promote fairness.

AI for Social Good

Leverage AI to address real-world challenges in healthcare, education, sustainability, and other domains that positively impact society.

Cross-Cultural AI Innovation

Foster a global community of young thinkers who collaborate across borders to develop innovative AI-powered solutions.

NextGenAI is dedicated to empowering the next generation of AI leaders who will shape a better, more equitable future through ethical, socially-conscious, and globally-connected innovation.

AI Ethical Awareness

Construct Map

Create a construct map that defines low, medium, and high levels of AI ethical awareness. This blueprint will represent the qualitative aspects of the variable of interest.

Question Design

Construct survey questions that can measure the varying levels of AI ethical awareness, from low to high, based on the construct map.

Scoring Guide

Develop a scoring guide that relates different response scores back to the levels defined in the construct map.

Rasch Modeling

Apply Rasch modeling to test the hypothesis that the AI ethical awareness variable behaves in the way that was hypothesized in the construct map and survey questions.

Collaboration Strategy

High Schools/Universities

Partner with schools to establish AI clubs and integrate AI education. Reach out to university AI labs for mentorship and resources.

Non-Profits

Collaborate with organizations focused on education or technology access (eg. AI Ethos) for funding and outreach.

Industry

Engage with AI associates (eg. TAIA) & companies for guest speakers and internship opportunities.

Open Learning Network (OLN)

Open Learning Networks (OLNs) are a transformative educational model combines institutional coursework with community involvement, global experiences, interdisciplinary content, making learning truly borderless.

Join Us!

Shape the future of AI

Partner with NextGenAI to empower young leaders and shape the direction of AI development.

Gain access to innovative student projects

Collaborate with NextGenAI to get early exposure to cutting-edge AI solutions developed by talented students.

Be part of a global movement for ethical AI education

Join NextGenAI's mission to promote responsible AI practices and build a more inclusive, sustainable AI ecosystem worldwide.

Together, let's empower the next generation to create an AI-powered tomorrow that benefits all.

**“We're building a movement—
powered by youth, grounded
in purpose, and connected by
learning.”**

PAUL CHAN, PRINCIPAL, LEGEND COLLEGE PREPARATORY

Empowering Young Thinkers for an AI-Powered Tomorrow

NextGenAI International Organization is a student-led, mentor-supported organization dedicated to empowering young thinkers worldwide to shape an AI-powered tomorrow. The organization aims to foster ethical AI awareness, develop practical AI skills, and inspire solutions to real-world challenges.
